**Subject:** Just did Another 5 Min. Interview RE: U.S. Ecology: John Stang, "RadWaste Monitor"  
**Date:** Tuesday, November 20, 2018 11:09:00 AM

---

All: John was mostly looking for background to "catch-up" on the story....

I offered him our statement and latest info and then re-directed him to the Company and IDEQ for facility-related Qs....

He asked if EPA was currently involved in an active investigation into the events surrounding the explosion & fire and I told him that right now we were providing oversight and technical support to the Company-led cleanup at the facility.

He said he already had a call in to the Company and was heading to IDEQ next!
